Marty,

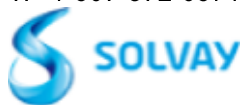

The particulate and VOC performance test reports for BO-4 and the particulate and RATA performance test reports for CA-1&2 have been submitted on IMPACT. Please let me know if for whatever reason you do not receive these reports or if you have any questions or comments.

Thanks,

Ouisha F. Dean

Environmental Engineer

Thanks Ms. Dean - thought for a moment there was a new employee at Solvay :) Congrats !

Yes, I see the reports in IMPACT. I'd like to discuss submitting reports through IMPACT at upcoming inspection. get your comments and feedback, etc.

I've reviewed the boiler-4 voc and PM reports, no issues. Mark Gagen reviews RATAs - I think Mark has your facility. Looks like good results on A & B calciner PM test, which is good to see.

If your ever interested, I believe you can check status of a report by going to "compliance reports" or "stack test" tabs at top of the user portal. There should be fields showing when report was reviewed and for stack tests who reviewed it.

Thanks for the heads-up.

Marty

Marty,

Thanks and glad you received the reports. The ability to check the status of compliance reports will be handy. Thank you for the information.

Thanks again and have a nice weekend,

-Ouisha
